SUMMARY

As a Web Developer with **1.5+** years of experience, I specialize in building secure, user-friendly, and high-performance web applications with a strong focus on user experience. I develop dynamic, responsive websites tailored to meet specific business goals.

I have worked on a variety of projects, including eCommerce websites using WooCommerce, and developed custom admin panels for easy content updates. I also create custom WordPress themes and plugins, ensuring speed optimization, SEO-friendliness, and cross-device compatibility.

In addition to WordPress, I build coding-based websites using HTML, CSS, JavaScript, PHP, and MySQL, delivering complete full-stack solutions. Passionate about problem-solving and continuous learning, I strive to develop smart, scalable web solutions that drive business success

EXPERIENCE

NOORYAK TECHNOLOGIES — *Proficient Wordpress & Web Developer(UI UX & Backend)*

May 2025 - Present

Developed Custom WordPress & WooCommerce Websites – Built responsive, SEO-optimized websites with custom themes, plugins, and integrated secure payment gateways.

Handled Full-Stack Web Development – Managed both Frontend design and backend development using HTML, CSS, JavaScript, PHP, MySQL, and third-party APIs.

E-Commerce Website Development – Implemented advanced product categorization, search/sort functionality, and an admin panel powered by MySQL.

Created Custom Admin Dashboards for Clients – Designed user-friendly admin interfaces to allow clients to manage website content and settings without technical assistance.
